

RECYCLE
SOUTH

Recycle your Bale Wrap and Silage Covers

If you're burning, burying, storing, or ignoring bale wrap and silage covers, we have the solution!

With the donations from our incredible community, we have been able to purchase a machine to efficiently process bale wrap waste and plastic products so that it can be repurposed.

Please make sure all bale wrap is free of debris, excessive mud, and netting. Silage covers need to be cut into 3m wide strips and separate the oxygen layer from the outer layer.

Cost

Processing of bale wrap and silage covers is **15cents + GST per kg** (approximately 15cents per bale).

Drop off address

210 Branxholme Makarewa Road, Invercargill

Tuesday to Friday: 8am - 4pm

P: 03 211 0069

Acceptable Product

Bale wrap

- Separate outer and inner linings
- Remove netting
- Sort into colours

Silage covers

- Cut covers into 3m wide stripes. The length doesn't matter
- Please separate the oxygen and outer layers

- Colour sorted
- Wrap is loose, not rolled or compacted

- Colour sorted
- Netting and other contaminates removed
- Stuffed in bulka bag/fadge

- Colour sorted
- No excess dirt
- Netting and other contaminates removed

Unacceptable Product

- Bale wrap mixed in with silage covers
Please keep these products separate

- Incorrect product, small PP bags

- Incorrect product, netting

NOTE: We may charge an additional \$400 + GST per tonne on any contaminated product discovered after the customer has left. We cannot process bale wrap or silage covers in an unacceptable condition.

Drop off Etiquette

210 Branholme Makarewa Road

- Colour sorted
- Bale wrap can be loose or stuffed in fadges, bulka bags, or Plasback bags
- Silage covers can be loose but need to be cut into 3m strips
- Large loads by appointment
- Provide all necessary information stated in form enclosed
- Strictly one load per customer – No mixed farm loads unless by prior arrangement
- **DO NOT DUMP AND LEAVE!**

PLEASE NO:

- Small PP bags (calf feed etc)
- Netting
- Stones
- Excessive dirt
- Metal (wire etc)
- Tape (sealing holes)

Payment

Payment is to be made via eftpos, Farmlands card, or invoice with prior arrangement. Cash payments will not be accepted.

We also take other plastic products!

We're the environmentally friendly solution for your plastic recycling needs.

Packaged separately to your bale wrap or silage covers, we also take for recycling:

- Agricultural plastics
- Drench containers
- Chemical drums
- Bloat aid containers
- Teat spray containers
- Agri-spray containers
- Polyprop/fert bags
- Pellet wrap
- LDPE – plastic 4
- HDPE drums (20L to 200L)
- Building shrink wrap

All containers and drums must be triple rinsed for safety.

Not sure how to prepare your plastics for recycling? Please give us a call or head to our website for more information.
