

RECYCLE
SOUTH

Recycle your Bale Wrap

If you're burning,
burying, storing,
or ignoring bale wrap,
we have the solution!

With the donations from our incredible community, Recycle South have been able to purchase a machine for processing bale wrap waste and agricultural containers. We are able to efficiently process this by-product so that it can be repurposed.

Please make sure all bale wrap is as clean as possible, free of debris, mud, and netting. **All bale wrap needs to be packed into fadges, bulka bags or PlasBak bags. Loose bale wrap will not be accepted.**

Processing of bale wrap

\$150 + GST per tonne (approximately 15cents per bale).

Drop off address

210 Branxholme Makarewa Road

We also take agricultural plastic containers!

We're the environmentally friendly solution for your agricultural plastic recycling needs.

We will take agricultural plastics, drench containers, blue drums etc, for recycling.

All containers must be triple rinsed for safety.

We accept 200 litre drums, drench containers, bloat aid containers, teat spray containers, and agri-spray containers.
